## Education

| | |
|---|---|
| **LA GRANDEE International College** | **July 2021 – Present** |
| *Bachelor of Computer Application* | *Pokhara, Nepal* |
| **Pokhara Secondary School** | **June 2018 – May 2020** |
| *+2 Science* | *Pokhara, Nepal* |

## Relevant Coursework

- Data Structures & Algorithms
- Database Management Systems
- Computer Networks
- Web Technologies
- Software Analysis & Design
- Programming Logic & Techniques

## Experience

**Insoft Research and Developmemt**     **Feb 2025 – Present**
*Full Stack Developer (ASP.NET Core)*     *Pokhara, Nepal*
- Designed and implemented web applications using ASP.NET Core MVC and Web API, Working on School ERP software Project, client workflows, and different ERP modules.
- Integrated ADO.NET with SQL Server, stored procedures for secure and efficient data handling.

**Insoft Research and Developmemt**     **Nov 2024 – Jan 2025**
*Intern*     *Pokhara, Nepal*
- Designed and implemented web applications using ASP.NET Core MVC and Web API, focusing on property management, client workflows, and reporting modules.
- Integrated ADO.NET with SQL Server stored procedures for secure and efficient data handling.

**Freelance / Personal Projects**     **2023 – Present**
*Full Stack Developer*     *Remote*
- Built Differnt Software system Websites and hosting websites using diffent technology
- Experimented with MERN stack development to broaden skills in modern JavaScript-based full stack applications.
- Deployed web apps with Cloudflare and different Hosts, ensuring domain setup, HTTPS configuration, and performance optimization.

## Projects

**Payment Management Software** | *ASP.NET Core, EF, HTML, CSS, JavaScript, MS SQL*
- Designed and deployed a responsive web-based payment management system for an engineering consultancy.
- Implemented multi-installment tracking, client–third party settlements, and detailed financial reporting.
- Added two-factor authentication and email notifications for secure client and third-party interactions.
- Optimized MS SQL queries and schemas for efficient financial data management and reporting.
- Deployed on Himalayan Cloud Hosting with domain integration and SSL security.
- Web: https://payment.timesengineering.com.np

**AAWAS – A Room Rental App** | *ASP.NET Core, Flutter, MS SQL*
- Developed a full-stack rental application with backend services and mobile/web frontends supporting Android and web views.
- Implemented secure token-based authentication with role-based access control for tenants, property owners, and administrators.
- Built RESTful APIs for property listings, bookings, verification, messaging, and reviews, handling 100+ daily requests.
- Optimized database schemas to manage 1,000+ users, property uploads, payments, bookings, and communication records.
- Deployed the application on Azure with Cloudflare for domain security and performance optimization.
